We would welcome your suggestions as to our future programme. The Committee has this under consideration at the moment. Many helpful ideas have already come from the questionnaires sent in, but we would like to reel that all members have expressed their interests to us at this stage.

To this end, please fill in your questionnaire, however modest your skills. These details will prove of immense value in building up the organization of the Society in the next few months. Members will be interested to know that some old photographs of Finchley have been received from Miss Green who lived in Hendon Lane from 1883 to 1934. This donation is much appreciated. We are keen to amass as much documentary and photographic material as possible; any such gifts will be most useful.

Mr. J. Fitzgibbon was unable to take on the work of Treasurer of the Society. Mr. A. J. Tew has been asked to do this job, and he will be pleased to accept interim subscriptions of 30p either at the next meeting or through the post to: 43, Chactonbury Way, N,12.

Finally, a note for those members unable to be present at the last meeting, You will notice that the Society has now lost its historical label: the vote for 'The Finchley Society' was almost unanimous. We hope that those members who were attracted in the first place by the original title will not abandon us; the historical basis of our work will remain a most significant part of our campaign to protect and improve.

Yours sincerely

D.W. SMITH

Secretary
